## KNOWLEDGE AND TIME EBOOKS 2019

Author: Harald Atmanspacher u0026 Hans Primas

This is a unique volume by a unique scientist, which combines conceptual, formal, and engineering approaches in a way that is rarely seen. Its core is the relation between ways of learning and knowing on the one hand and different modes of time on the other. Partial Boolean logic and the associated notion of complementarity are used to express this relation, and mathematical tools of fundamental physics are used to formalize it. Along the way many central philosophical problems are touched and addressed, above all the mind-body problem. Completed only shortly before the death of the author, the text has been edited and annotatedu0026#xa0;by the author's close collaborator Harald Atmanspacher.
